### *INTRODUCTION*

“**Bridge Of The Gods**” is the Master Book of my “Global Divine Consciousness” Series. It touches on all aspects of mental, physical, emotional and spiritual evolution ~ setting the stage for advancement, igniting the flame of God within and giving methods, meditations, examples and practical application exercises for on the spot transformation and raising up into the God level and way of accomplishment.

**Chapter 1 ~ “The Awakening”** speaks of the necessity for the human race to rise to the next level, now ~ of ascendancy in conscious evolution through identifying with our Divine Origins {The Kingdom} and claiming our spiritual identity as one with Father/Mother/God. For right movement, flow and growth we must let go of the lesser attainments and stages of consciousness and manifestation for the greater. Whether collectively or personally, it is essential when a certain level of success

and power has been attained ~ that we release and move to the next Higher Realm, or stagnation sets in.

Leaving the age of materialism and duality behind us, we now seek to become Masters of the Spiritual Kingdom ~ moving into the penthouse of ourselves, the crown chakra, as it were. Herein lays all our joy, our progress and our discovery of our superior and limitless Divine powers. By loosening identification with the sense world, we begin to access the greater causal gifts and realms.

The opening meditation helps the individual pass “the rings pass not” ~ the barriers between his or her self and the next level of limitless awareness and ability ~ that the individual may tap guidance of Higher Mind for fulfillment of their current heart’s desires.

I believe we must always learn to use our power of choice ~ to develop Spiritual authority, and come out of victim consciousness. So I begin each chapter with definite goal setting and encourage the setting of strong goals {focusing around fulfillment of pure heart’s desires} throughout. When the will is highly focused, the reader becomes receptive to the Higher Way and technologies of God I wish to impart.

Now, we are leaving the age of duality and separation ~ making Love and Unity our Divine standard in all ~ healing race mind negation and liberating from the hypnotic influence of limitation and separation thoughts. The Password to freedom and ever-new bliss is God-I are One, “The Father and I are One.” This is the very first step of getting off the karmic wheel and bringing “Heaven to earth”...and the constant mantra of recognition for the burgeoning Christ Race.

**T**he *Spirit of Evolution* is upon us, emerging and unfolding, even as we now rise up on the *Divine Breath of God*. *Divine Light* is alighting and illuminating the face of the earth, as we awaken to the *Great Truth* of

our *Higher Mansions* and *Heavenly Estates*, and the thrilling reality of the vast dimensions of Spiritual knowledge that lay before us ~ resplendent in ultimate wisdom and glorious in untold gifts of Spirit...for us to behold. These radiant gifts of limitless potential are ours to develop, as we approach with deepest reverence, pass under the luminous archway, place our feet upon the sanctified stones and cross the threshold of the *Bridge of the Gods* into higher stages of *Universal Oneness* and *Bliss*.

*"For behold, I have gone before you, and prepared a place for you in my Father's house."*

Let us embark on our great journey of expansion across the bridges of time and space by starting with an opening meditation to center our minds and to prepare ourselves to receive of the highest information possible; so that we may advance in power and light, moving ever forward into the *Supreme Oneness* that we are.

*Ascending to the High Place, let us right now take a deep breath ~ breathing deeply into every pore of our being, the awareness of the complete Divinity and all the light, love, power and clarity that we are ~ letting go all that is past - all thought-taking that has gone on before.*

*Right now, at this very moment, we are open and available to the luminous truths of the entire cosmos. We are open to the Great Universal Mind and receptive to its stream of information ~ that information of Divine Light, which is the substance of our freedom, and that pours forth in abundance, right now, from the wisdom fountains of eternity ~ exalting every individual on earth.*

*Fine Gold Dust of Truth pours gently over us ~ blanketing the body, mind and soul, and bringing forth Light. The Face of God shines upon us.*

*We give thanks that we are Divinely guided beyond comparison, that each one of us receives the Revelation that we need to move out of restriction ~ to move forward into greater joy, and happiness and Fifth Dimensional Living. We give thanks to the Presence of all of life, to that which upholds all of life, and to that incomprehensible love and power that surrounds us and infills us, now...with the inestimable beauty, bounty and glory of its ineffable nature.*

*And as we think of these things, and each one of us brings to mind, that particular good of ascended virtues, and enhanced measures and attributes of*

*greater livingness, he or she desires to incorporate ~ we are exalted in Divine Ideas of Perfection and Bliss.*

*Let us remind ourselves, now, that through the awareness stimulated by the information and conscious ascension techniques, that we shall be looking at, we may find an open-door policy on the rings of God and Bridge of Destiny, as we move up the rungs of the cosmic ladder, step by step in perfect Divine order, and everlastingly surrounded by Divine Love. Through our Pure Light Consciousness, we pass beyond the rings—pass—not and move freely into greater dimensions of our being ~ dimensions of mind, {the Mind of the One}, and dimensions of purest feeling, {that are of the essence of God}. Now, we don the lustrous mantle of the pure and the transcendent Heart of Love. Now, we pierce the veil of matter ~ finding the Golden Body and Diamond Consciousness in all.*

*Our minds are complete and undivided. We blaze forth our confident minds of faith and knowing ~ complete minds of trust in the Infinite and the All, and we awaken to the invisible currents of Infinite Connection, which are ours, now, and always have been.*

*Our bodies are moving, strengthening and perfecting along with our understanding, simultaneously, now ~ alchemizing and becoming the Divine pattern of love, life and freedom, and the Pentagon of Divine Light that we were always intended to be from the beginning.*

*“Before Abraham was, I am.”*

*We are the emancipation ~ one with the whole mind of God, now! We are ready to receive.*

*And as we gently return to the present, we give thanks for great demonstrations of good for each Divine jewel and child of God ~ each charismatic point of God and beloved of the Father, existing throughout all the domains of the Heavenly Mansions, from earth to the Celestial Lights ~ that the greater demonstrations for all are immediate, and bestow greater good than ever before...for each one’s understanding is on high, and all are in Divine order.*

*We know that our word is one with the Divine intention, and the great Aum of the Universe, and already it has moved to loosen and eliminate any obstruction, anywhere. We are one in the New City and the new consciousness of mind. We are the new temple of risen Divine Consciousness, and the great universal knowing of the Truth of Light, whose time has come.*

*And so it is!*

Looking through the eyes of time, we can see that we have been progressing as a culture, particularly those of us in the vibrant climate of New Thought teachings, who have been so privileged to enjoy the recent wave of metaphysical exploration, with Spiritual Centers emerging all over the world. We have been very alert, aware and striving. And we have been working; we have been studying, and we have been thinking. We have been trying out all kinds of self-awareness techniques and self-enhancing methods, since the 1970's.

This ultimate and quantum leap movement in consciousness, that we are now experiencing, began its irrepressible and irreversible strengthening in the 1970's, with the advent and rise of all the different physical and mental therapies and natural healing techniques that appeared on the horizon, and became accessible for common use. And now the Sun is in its full ascendancy, with glimmers of the next and highest terrain of discovery already having surfaced, coming to the forefront, and heralding a *Higher Spiritual Healing* technology than ever before known. The 1990's culminated with Books such as *The Celestine Prophecy* and *Conversations With God* both reaching number one on all of the Bestseller Book's Lists, awakening and delighting millions of people. This stellar shift in global interest has been accompanied by a worldwide increase of the new One Religion groups that affirm *Divine Law and Principle*, and profess the *One Universal Spirituality*.

Now, in the 21<sup>st</sup> century, the task for all is clear ~ The next step up the ladder of evolution for each and for all is rising to fully embrace the true spiritual reality of each one's being, living from this high vantage point in all our ways and leaving materialistic approaches behind, as conquests of another age, no longer sufficient, no longer enough.

The greater evolutionary principle demands such lustrous progress now, for our outer worlds to manifest greater harmonies, solutions, and advancement,

*"I, (the Greater Self) must increase. He/she must decrease!"*

As a rising civilization, like Atlantis out of the sea, we now perceive, as Ralph Waldo Emerson pronounced:

*"The greatest advancements for the future of mankind lie in the unexplored realms of Spiritual Dominion and domains of higher truth."*

g  
u  
t  
t  
e  
r

Even scientists in Great Britain, now are looking beyond *speed of light* theories ~ to find that which is greater. And a greater sun behind our very own sun and many times larger in size has already been discovered and photographed.

Walls of division and elitism are crumbling, as the knowledge of the *One God* comes forth. The very walls of science are melting, as we are re-discovering the *Light of our Divine Origins*.

And the message that these wonderful books, and so many other wisdom teachings and exalted teachers have given us ~ is that the time is ripe for us ~ that we are really, *really* ready to acknowledge all that we are, and to advance as a One-God civilization, and to embrace the entirety of our being as one hundred per cent Spiritual ~ one hundred per cent bona fide *Divine Beings* ~ *Beings of Light*...and to begin living from new platforms of truth in all our ways. We are ready to let go of the past and to acknowledge the One in the many and the many in the One ~ the *Infinite Essence* that we are.

Thus, the story of awakening humanity, {our story}, is really the sublime story of the return of love and the descent of the Holy Spirit upon our earth. It is a Divine story of the evolution of the highest consciousness of love; and hence, access to greater livingness of *Fifth Dimensional* awareness...for every man and woman, having a human experience, as a *Spiritual Being*, today.

A profound alchemy of God is touching our souls, and we see ourselves, now, as inheritors of the Kingdom ~ progenitors of the *Divine Race*, and one within the greater *Cosmic System*. Every thought and action we have, we know resounds throughout the Universe, and has its effect throughout the whole. We are part of a great cosmic fabric and family, and we recognize it as never before.

Along with this awareness and together with all the great visionaries and *Mystics of the Ages*, like Rudolph Steiner and Aurobindo, we realize:

“We are constantly birthing into higher dimensions of ourselves... and we shall not rest until we have gone all the way, and obtained the *Supreme Pearl of Greatest Price*, in all its radiant facets.”

All life is indeed the womb of preparation for the next stage and is never ending. Thus, today, philosophies of death, disease, decay and

denial are dissolving before us; and there shall be no death for us, anymore. Only ever increasing radiance, on ever more greatly intensified and expanded spheres and tiers of light, shall open our reason to the more exalted view. And as we ascend the evolutionary ladder now, we shall find our concerns of linear time, dissolving in an ultra-awareness of all time and dimensions existing simultaneously, and also available to us in the here and now; and our capacities to travel up and down the inter-dimensional ladder, and to commune at will ~ indeed to talk with the Masters, shall once again be restored. No more are we traveling a limited time line, careening toward death; yet we are gaining energy and longevity by moving ever upward into the liberating Light.

Thus, the most important task, that we, who are alert and aware, have a responsibility to accomplish ~ since, we do have the intelligence, and we do have the consciousness, and we do know what is happening, is to complete our individual and collective work of removing from the collective mind all those ideas that are erroneous, and that are incorrect and untrue about us as *Divine Beings*, at last uncovering the diamond body and revealing the perfect truth ~ known in the *Christ Overself*, that:

“We are one with *Infinite God* ~ the totality of Spirit, having a human experience.”

So the ultimate goal for us and for all of our life purposes, now, is to come into this higher knowing ~ in and through everything we are doing, regardless of our calling or profession, or whatever occupation we are predominantly focused in; whether we are in business, or devoted to raising a family, or whether we are on the highway of a singular personal quest or universal mission. Whatever we are doing in this life, our one single and true through line is to bring out more and more light, love and unity, right now in our lives, right where we are appointed, and to reveal that Divinity ~ that Divine Spirit that we are one with in all that we do. And we must come to understand that this *Evolution of Love*, through us, is the one and only perfect path of ascension. And we must deeply know that the cultivation of this highest love is not love in the traditional sense that we have learned to think about it.

“How many people can I own and manipulate? Who loves me?”

g  
u  
t  
t  
e  
r

It is not about that at all; yet it is about truly evolving a universal, unconditional and heavenly love, and living it in our daily lives.

“How many lives can I empower, and raise into consciousness of the Oneness ~ including my own ~ that I may reclaim the Kingdom of my Father?”

Jesus didn't come into hell states of earth fire to test the air-conditioning. He came to bring out each and every member of the God family, and to teach emancipation through elevation of Spiritual awareness, unification with Godhood and demonstration of the perfect Spiritual healing technology of *Divine Love*.

And we are the fulfillment now, of the perfect patterning, he blessedly set forth over two thousand years ago. Thus, our number one priority is to complete now, the purification of our own lives and the redemption of our world. Then we can progress, outward from there, into the many mansions of greater joy and luminosity, with all the *Host of Heaven* cheering us on.

Ask yourselves:

“How many lives can I empower, now? How much truth can I generate, and do I bring into this totality of being to help accelerate our Universe's evolution, and quicken every being in it, and propel them forward? And if I am not doing this, how can I begin to join in this cosmic movement to promote God's plan?”

So we realize now, that the jewels composing *the Bridge of the Gods* and embedded deep within its imperishable structure consist of diamond clusters of truth, purity, crystal clarity, love and beauty ~ all emitting the radiance of *Divine Light*. This bridge is the true bridge to ourselves. Our very feet and bodies are illuminated, as we touch these lustrous elements, and the light is ignited from within. All the quintessential elements for our awakening and walking the *Ascension into Light* and evolving into *Pure Light Beings* are within us, and are related to our *Spiritual Essence*. And these are the infinite and golden qualities that emerge, when we are clear on who and what we are, and when we are not feeling pulled this way and that, and distractions of the sense world are not going on around us. When we are not in our reactivity and victim consciousness, built out of our collection of our self-created negativity, we may access higher worlds. When we are not there, yet when we are in the secret

place of the *Most High* ~ when we are communing with our *Higher Self*, and when we are in that still place, and knowing who we truly are ~ that is when we experience the waking up and welling-up of these qualities we are referring to ~ as kindness, love, well-wishing for one another pour out from us, melting greed and selfishness from our very bones and etheric structure. A sense of oneness with the entire Universe of being sweeps over us, and adorns us with the *Royal Robe*, *Ruby Ring of Unity* and the *Mantle of Peace*. Wisdom ignites our forehead...and in these supreme moments the treasures and gifts of Spiritual life and transcendent powers open unto us.

When we reside in the *High Place*, recognizing our *Spiritual Identity* ~ ideas of division, competition and separation fade away as so much nothing.

No longer can that line drawn in the sand survive, separating one from another

“There is you, and there is me ~ this nation and that nation ~ your religion and my religion.”

These old ideas, born of stilted awareness must go, and indeed, do vanish from our thought field, and therefore our world. We shall exult anew in the awakened sense of abiding in a very harmonious and whole Universe, and playing our part in upholding that Universe, while a deep reverence for all creation permeates our souls. The treasure of life and the awareness of this precious gift shall indeed become ours once again.

And just like the astronaut heroine in Carl Sagan’s book “*Contact*” bravely steps into the atomic accelerator to travel to inner spiritual dimensions and finds ultimate healing Truth...the very floor of our thought shall dissolve into *Fifth Dimensional* patterning. Hard walls of separation shall then become luminous and scintillating malleable substance; and through our automatically accelerated consciousness, we shall be able to cross over the threshold anytime, into *Heaven’s Mind*, and then come back to bring greater truths of *Higher Kingdoms* into our physical reality ~ passing back and forth through the veil, any time we choose, and at will. Our individual purposes have now expanded, and we see ourselves anew as limitless cosmic citizens, and

g  
u

ever more frequently in the context of the One. There is no more ceiling of separation between us and the Divine.

“Oneness with God and all is our key, unlocking the latent powers of our true estate.”

“For do we really have limits?”

You know, it has become harder and harder for doctors and scientists to determine the actual moment of physical death these days. Recently, a man came out of a seven year coma.

“Who can say what good he was gathering, while he appeared to be gone?”

I always affirm to myself:

“I have a choice. If I am here on this planet, let me add unto it in everything that I think, say and do. Let my presence make the planet more wonderful, and let the vibrations resound throughout the Universe. Let me tune into *Divine Mind* and find out what is best for me to do, and how I may best serve.”

We have a choice to add or detract, wherever we are. Likewise, we have all had our experiences of being blissfully one, and we know what that is like. And we are having these elevated occurrences more frequently these days, because, {thank God}, there are more and more great teachings and revelations taking place, which are being dispersed to all who seek. The *Higher Mind* is propelling us forward, and we want to get to that place, where we have become so empowered, that we shall raise above all those magnetism's of the negative thought fields from the past, to where we can now abide and live unceasingly in the purest *Principle of Love* continuously. Soon, of ourselves, we shall certainly discover that the great secrets of the pyramids are written within us. And the temple of man is nothing less than the *Temple of the Living God*.

What I am talking about here, {just understand this, it is so simple} ~ what I am talking about is the unspeakable prowess of *Divine Love*, the *Power of Powers*, that any Master will tell you is the *Great Mystery of Mysteries*, the *Great Unknowable*. *Divine Love* is the omnipotent Mind of God that provides all that there is. *Divine Love* is the *Breath of your Life*, and it is within you, filled with atomic potency ~ just awaiting your use.

“So what are the great teachers and teaching instruments of past, present and future telling us?”

When you rise to the level of *Divine Love*, you shall have your *Christ Power* to cast the mountains into the sea and to heal any and all things. *Divine Love* is all and the way of Ascension! Our consciousness of *Divine Love* provides every good for us. It brings all the gifts. It brings protection; it brings freedom. It brings resources directly out of the substance. The materialization of that which we desire to experience comes right out of our connection with that *One Divine Power*. Thus, our story is a story of ever-increasing connectedness with the *Higher Power*, and there are ways, whereby once we have spontaneously experienced this connectedness with the Universe, we can consciously maintain it, so that we will never again have to feel that we are living in a world of duality, or experiencing separation from any good in our lives. And we shall examine the incremental ways, and open some secret doors and passageways, as we proceed across *the Bridge of the Gods* into *Divine Light*, and unleash the *Royal Secret of the Ages*.

“Whatever, the Creator is, I am. How great is my world.”

So *Divine Love* is the hub and cornerstone of what it is all about, causing the conversion of all gross tendencies, humors, tapas and attitudes to alchemize into sublime Spiritual energies and powers, and bringing forth the qualities of Spiritual freedom: adventure, abundance affluence, altruism, ascension, *Divine Love and Heavenly Amour*.

“I am the Phoenix rising out of the ashes of my yesterday into the splendor of eternity.”

Now, in our raised state, fearfulness has transformed to become the spirit of boundless adventure and radical reliance of God. Division has risen to sublime unity; lack, sorrow and failure have converted to abundance, affluence and success, and personal acquisitiveness and greed have been remade in the image of God to breathe forth the sweet elixir of altruism. Selfishness and separation have been transmuted into *Divine Awareness* and *Divine Amour*. As we proceed with our ascension on the spiral staircase of love, we simultaneously view each of these noble qualities, appearing and standing out before us, as the *Divine Soul* and human will merge through the chakras with the will of God.

*“As I rise, all thing rise to meet me.”*

Yes, *Divine Love* is what it is all about. And we rejoice in doing our Divine work of highest vision and standards, now. We are choosing and accomplishing our supreme and foremost goal of highest Spiritual attainment, working along and close-at-hand with the evolutionary impulse that is moving you and me, and which is the very force that has brought us all together to have a universal clearing experience. In this way, we bless ourselves with a profound elevating and transforming experience, that is of God, and that is God. And we recognize that God and *Divine Law* is the *Evolutionary Principle* that is prompting us and propelling us to go further into *Heaven's Mind* and the Light that is bringing Heaven to our earth, right where we are.

“Don't we know God has an idea, and is the *Silent Force*, behind all, guiding us in limitless wisdom according to the *High Plan* ~ arranging the perfect tapestry of connections and inspirations in our lives to create the seamless garment in all?”

All of us have responded to that Divine call and inner impulse; and we know this impulse has been going on forever. It is that *Principle of Infinite Life* within us ~ ever urging us to be, to do, to have, to express the more.

Ask yourself:

“Why would people want to get wealth? Why would people even think that they could? Why would people desire to do great feats and bring about great accomplishments, whether it is drawing magnificent paintings, whether it is cultivating the greatest and most successful business, or building the most beautiful building or discovering anti-gravity technology ~ whatever it may be? What is this impulse, that resonates its sound infinitely in our souls and that expresses forever, so uniquely, within each one of us?”

It is that *Evolutionary Principle* speaking to us, and alerting us to the fact that there is always more to us than meets the eye. There is a something greater in us ~ the *Essence of Heaven*, out of which we have been created, and the *Eternal Flame* that abides in constant unity with the Creator...the Light that ever seeks to come out.

*“I am the fire and light of Heaven ~ come to express that which I am.”*

And we recognize our life is not about the particular form we have chosen to express our Divinity through, whether we are perfecting our

business ~ perfecting a relationship, perfecting our health, or raising ourselves out of the dust of matter. It is far beyond that. That is just our outer form and vehicle of transcendence ~ our very own *Light Ship* ~ facilitating our Spiritual goal. But then we are to take this energy of our greater selves, consciously bring it out, apply it in every way, and co-work, {if you will}, with the Infinite ~ with the impulse of *Higher Evolution*, which right now, heralds that we are the highest life form expression of the Kingdom, and can attain the highest experience; and through us, the Creator may find Itself ultimately expressed in full.

“Why is that?”

Because we possess the living force of *Divine Intelligence*, and we are the living consciousness of God ~ God, the *Great I am* ~ the *Life Force*. The *Divine Breath* of the many bountiful names manifest us, as the perfect outpouring and re-creation of Itself. Therefore, we possess all that there is, and all that life is ~ to the highest degree and potential possible.

*“I am made in the image and likeness of God.”*

Now, it makes sense that every parent wants for his or her child to blossom completely, and every rose has come to be fulfilled. Thus, each one of us is a Divine expression of the Divine parent, a unique facet of the crystal of life ~ a being of Light that has an inherent perfection to their being, as one with the *Most High*. We are not talking perfection in human terms, but recognizing that deeper perfection of your being that calls to you to express the greater spiritual self that you are, in and through your chosen area, indeed, wherever you are. So the idea behind all of this is for all of us, individually and collectively, to awaken, now, and regain our gifts of life which have been suppressed so long ~ to bring them out and to come into perfect consciousness, once again of that which we are. This is the message of the *New Millennium* ~ which is the message of the *New Golden Age*, and the very way we may bring Heaven to earth.

Yes, we are at the critical point of collective entry into another *Golden Age*, and all good is before us. You know, there have been many periods in history where there have been *Golden Age's* ~ where civilizations have advanced very, very far, and where all the gifts, and the mysteries and

the insights were active and realized within every being; and the people knew, and they understood. Everything was revealed to them.

“But what happened each and every time? Why didn’t the *Infinite Impulse* or the *Original Causal Impulse* fulfill Itself?”

The *Original Cause* didn’t fulfill itself, because certain persons and rulers got stuck in power, and at the supreme moment of glory, forgot the One.

And so once we have manifested and created magnificent things, and then we say:

“*How great I am!*”

And then, at this point of personal glory, if we then forget to acknowledge our Source ~

“What happens?”

Everything immediately begins to break down.

So let us all know and decide that as we are discovering the truth, and getting our increased understanding, that we are going to make it a part of our being, and we are going to keep it in sacred trust; and we are going to see that the Divine idea comes to fulfillment ~ that we are going to go to do our part, wherever we are.

*“And we shall always humbly acknowledge our beloved Source, and have no other Gods before us.” Then, the Infinite shall open wide even and ever greater horizons of majesty for us to explore and enjoy.”*

All is very well with us, and wherever we are, is our Divine appointment, and that is where we are supposed to be to bring out that which we are. And in this way, we can raise the Universe. We can lift our worlds and everyone throughout the world to a better place. In this way, as a collective body of Light, responding to the *Higher Light*, we can assure that the steps forward, that we take in conscious understanding, shall remain ours ~ eternally, along with all the blessings, because we know where in, and where of, is our Source.

*“Our Kingdom is secure.”*

We are the generation, that is remembering who we are, and there can be no greater bliss than this remembrance. If you look at the lives of any Master, you will perceive the many blessings they enjoy. Look at any *Master of Divine Love*. Now, each one of the *Divine Host* possesses powers over the physical plane. They have dominion over the earth,

lands and seas...and all fields of energy and intelligence supply their needs. And they have only to speak their word in concert with the *Divine Light* to manifest whatever they desire.

*“Father, I’ve got five-thousand people to feed. Multiply these fish that this child has brought to me. Show forth Your abundance of Love.”*

And the heavens pour forth their majesty, and the good supply is manifest! What we have to understand is the reason that people are given an increase in powers, and that they get to the sacred province and point of passing over *the Bridge of the Gods* is because they have arrived at a place, where their love is so highly evolved that they only use the power that is bestowed them ~ that is resident in the Universe, and opened wide unto them, for the purposes that promote Love.

This is a very, very, very important understanding. If you know that whatever your quest is ~ that whatever you are doing or aspiring to is not only prospering yourself, but prospering all, and is in accordance with the *Divine Will*, you will have limitless glory, because this approach of *Highest Love* is right and true under Heaven’s demands. There is no lack in the Infinite, and a world of good is yours, once the door to selfishness and separation has closed behind you. Therefore, behaviors that are driving you into lack are something you want to step out of ~ no matter what the *they’s* are saying, justifying, or what the world says.

*“My Kingdom is not of this world. I am in this world, but not of it. And the poor {unrealized} you will always have amongst you.”*

“Truth is truth! And our experience of the holy *One* is our only truth, and the only one we claim.”

So know that, in aligning your individual purpose with the cosmic idea and *Universal Will* ~ the universal idea of love, harmony, peace, advancement and prosperity for all, continues your life stream, and provides you with the passport, enabling and empowering you to cross dimensions of time, and space and light.

If this thread or if this circle is broken ~ if we have to get our good at someone else’s expense, or if we have to get our wealth by diminishing another, then we have not arrived at the perfect *Principle of Love*, and we cannot even begin to cross into the *Promised Land*. In truth, we would not even pass the energy check point. I always say, “God is never either/

or, yet always Both and....!" Let your thinking always embody "The Highest Good for All!"

So too, if I feel that I am dependent upon persons, places or things for my wealth or for my good ~ for my rightful good as a child of the Infinite and a being of Light, I still have not understood who I am, and cannot begin my transition into the *Golden Light Body*, nor experience the alchemy of the spheres ~ the metamorphosis ~ the transfiguration, from the chrysalis to the Saint.

And as Rudolph Steiner might have said, we know that:

*"We must act as if we are preparing for birth into a greater life, right where we are, now ~ submitting all patterning to the Divine Alchemist for complete conversion."*

Take for example, Jesus. When the tax collectors came along and confronted Him, and they said:

*"Okay, it is time for taxes."*

Jesus replied:

*"Render unto Caesar that which is Caesar's. Caesar has a government to run; let me pay my taxes."*

And, he went into the fish's mouth, and retrieved and appropriated the necessary coins. He didn't say:

*"I can't acquire the money. I've got to go steal it from someone else, or not pay my fair share."*

Jesus lived by *Divine Law*, perfectly conscious of the Infinite Supplier in the here and now...and thus, he moved harmoniously in all worlds, with a sense of the harmonious operation of all systems of worlds, including governments. He was totally supporting and sustaining of all Universes, in all that He did...including the well being of all in *His Infinitely Transcendent Heart* of countless chambers.

So just know it is no error that we are advised, over and over again, in all the lives of Masters throughout time, just how important the constant striving to express harmony, peace, courageousness and love is to the perfecting and raising of all our Divine qualities from within, and to bringing out the magnificence of our own lives ~ just how important learning how to sustain *Perfect Love* under all conditions is to the sustaining and final emancipation of our lives, and to the regaining our immortal statures.

Just ask yourself the following question, when you have something new in mind ~ and you always will, for you are one with the *All in the All* - the *Limitless Spirit of Creation*. As soon as you are done with one thing you will have something else come up, for there will always be new fields to conquer. Be aware of that, because you are an Infinite being. You are not going to stop at any single creation. You are going to keep expressing that which you are, because that is what you are about - *Unlimited Beingness* and *Astonishing Light*.

So just ask yourself - when you embark on a goal of any great measure, regarding any new idea that you may have in mind:

“Does it prosper me?” “Does it prosper others?”

If the answer is yes, then of course, it must be brought out in sublime perfection. All the forces of the Universe will support you in your quest.

You can also treat or pray that whatever idea you have, that in its fullest execution and bringing forth into expression, it is not only enhancing yourself, yet everyone else connected to it. Now, this applies to our every area of endeavor or aspiration. We must understand that the *Law of our Essence* is the only Law, and it applies everywhere. No one gets out of having to perform this alignment with the scientific *Law of Love*...which is the *Law of our Being*.

“*Love is the fulfillment of the Law.*”

And with Love perfected enough, we may place our feet on the elevated structure of the bridge, and commence our sacred way into the ultra dimension.

And we always have the choice to be Love or to be less ~ retard our growth and be less ~ or advance in greater Love...releasing the lower for the higher.
