### *“THE DEFINITION”*

#### {INTRODUCTION}

**P**art I ~ *“The Definition” of “Living The Miracle Consciousness”* reveals the transcendent characteristics, defining miracles. Miracles are boundary breaking and time shattering events, causing the Soul to awaken to the Highest states of bliss and unity with *God and the Kingdom of Limitless Good*. Miracles reveal the true boundless nature of the *God Self*, as it reaches into everyday experience. Exalting and uplifting, spontaneous, unprecedented and joyous, encompassing synchrony and serendipity, miracles show forth the *Presence of the Divine* in everyday matters. Miracles are the product of an Infinite *and* all-embracing Love, as the Soul is unified with God.

In the *Miracle State*, the Soul is now liberated from all former influence, and enjoys the realm of *Higher Sanctity and Grace*. Uncontaminated by negative conditioning, latent Divine attributes are now displaying directly and profoundly in the individual life ~ always breaking some shell of limitation that the Soul has been encased in, revealing the *Light of Truth* and manifesting the golden atomic purity of the *Divine Self*.

Following the description and several examples, Part I ~ “*The Definition*” proceeds in a profound and all-inclusive opening meditation ~ to tune the psyche to the miracle level and to seal the Soul in *Limitless Light*. At the level of Divine harmonics and patterns, we find all good flows freely, and there is no obstruction, nor resistance or duality. One with God is a friction-free state. Creation is accomplished immediately and with ease. The individual has now risen free ~ to incorporate and manifest all the awesome properties and authority of *the Limitless Divine Nature {Higher Self}*. The *Divine Personality* has now come forth

As the reader ascends into the *City of Miracles*, at the summit penthouse of existence, and beholds a risen *Civilization of Highest Light* ~ living in full activity of omniscience, omnipresence, omnipotence and beatitude...wonders unfold. In order to arrive at this *Fifth Dimensional Christ Level* of existence, it is always necessary to prepare ~ first, by cleansing the mind of

any negatives, detaching from the past and letting go of the familiar, fixed or separative ideas, which obscure the domain of *Limitless Light*; and secondly, by getting ready to receive the influx of *Higher Whole Light Patterning*, and suspending all negative projection or speculation, whatsoever.

This is somewhat like travelling to a new country. We leave the old behind ~ in essence, dissolving and divorcing all past, in order to receive of the greater; and advance into transcendent awareness. For in Principle, only the *Innocent* can know God; and the profane cannot dwell there. This innocence is achieved simply by being willing to let go and extending vision to embrace *Higher Realms of Peace, Love and Harmony* ~ basking in the beneficent Light of richest and most radiant fulfillment.

Part I ~ “*The Definition*” continues with very helpful questions and answers, as Dr. Linda shares common blockage that people face on “The Road to Miracles”, revelations that empower and heal, and brings up separation issues, that people frequently deal with in their everyday lives. An exercise to aid transformation and transcendence is given; and asks the readers to inquire within, and find what they need to add unto their consciousness, to rise to the level, commensurate with the miracle, that they desire to experience. Understanding everything, one could ever want or need already exists and is available at the Fifth level of perception or the domain of the *Higher Self*.

*“As I rise, all things rise to me”*

A quantum leap into transcendent reality can be gained, instantly, in this way. For in the *Father’s House* ~ rich in *Living Principles* of perfect joy and happiness, all is already created, available and manifest, if we know that it is. Another exercise is given to heal notions of obstruction and duality... that the *Miracle Self* may unfold.

*“For a divided house cannot stand.”*

A meditation follows the exercise on releasing obstruction and lifting horizons of expectancy beyond veils and ceilings of the past, where the reader envisions the self ~ free and manifesting at the *Highest Level*.

Here, the individual witnesses their own miracle ~ perfectly manifest ~ delving into the atomic power of *Divine Light* thought forms...as being all power to go out and gather from the entirety of the Universe, everything necessary for manifestation. The realization that ideas are free-flowing and mutable, and cannot be obstructed is highlighted ~ that the individual may experience *Higher Unity* with *Divine Power and Intelligence*, and understand how mind fully manifests, while claiming this limitless capacity as his or her very own.

All exercises are geared to help the individual realize the utmost state of the unified field of a perfect harmony and synchrony ~ a Golden Realm of authoritative and simultaneous demonstration, perfect and pure in every manner ~ born out of a Spiritual system of perfection, wholeness and *Limitless Principle*, upon which we can radically rely.

Of course, as in all Dr. Linda's books and works, strong goals are established at the outset, so that the reader may have strong intention, learn to think unconditionally; and learn to freely use the unlimited *Mind of God* and demonstrate miracles, through intentioned application of the information...as it unfolds.

Many persons, having read "*Living The Miracle Consciousness*", happily have experienced many limitless breakthroughs; for the information provided in this book stimulates Higher awareness; and causes or creates on the spot alchemy. One reader experienced ten miracles, after a two-year period of total stagnation.

The power of crisis is shown to serve as a catalyst to transform, and the power of release is highlighted, as key points, where following failure at the human level of efforting... the Soul finally releases, and allows the influx of the *Higher Power* to happen.

A discussion of the timeless, spaceless realm is included ~ encouraging the reader to learn to always think in terms of now. For in Truth, all potential is now; and there is only now ~ in God.

The importance of releasing all doctrines of punishment, fear and guilt is stressed ~ in the understanding that these feelings oppress the Soul, and bind the Soul in patterns, where good cannot be achieved, and liberty cannot be attained.. The knowledge that God is Love is all to salvation. As the Soul frees itself from all condemnation, it may now rise in glory, joy and purity ~ one with *Father/Mother God*.

The individual is encouraged to live in and cultivate the consciousness of now ~ letting go of delay concepts, futurizing and living in the past...and, instead connecting with *Divine Capacities*, as if they were their very own... letting go of all their own shortcomings and developing a radical reliance on God.

An exercise is given at the closing of Part I, to stimulate realization and to encourage radical reliance on the all-pervading Infinite Power. The healing of all ideas of conflict and duality is encouraged, for these ideas always interfere with the purest and most lustrous good that is always available. Healing resistance is encouraged, as the individual learns resistance is not a thing of itself, yet finds its base in fear thoughts ~ thinking in terms of the absence of *God and Love*, rather than the Presence at all times.

A profound question is brought up, that can always be asked ~ to set consciousness at the level of *Divine and Miraculous* demonstration.

*“If I never knew about limitation, lack or separation, would they exist for me?”*

~

Of course the answer is no. The objective is for all people to come to such a strong place of liberty and unity with the Light, that the individual no longer remembers how to even produce limitation of any sort; and right now and ever lives in the bliss of the *Divine Self*.

## CHAPTER I

### PART I

#### *“THE DEFINITION”*

**B**efore we enter into the *Sacred and Holy Space of the Most High* and begin our ascent into the *Divine Realm of Miracle Consciousness*, by means of meditation, let us first discuss the luminous characteristics that define miracles, so we are crystal clear on the definition. Now, we set the tone of our consciousness at the Highest level of receptivity, so that we may receive from the *Universal Mind* the influx of the *Great Truth* ~ regarding miracles and manifestations

Miracles classically transcend any former condition, and such awesome events are inherently one hundred per cent transformative. In other words, when you have experienced a miracle you will have experienced the fullness of the *Divine Idea* for the greatest good that is already resident in your situation.

Rising beyond blockage of any sort, the inherent potential of *Highest Solution* and the *Light of Glory*, hidden in the midst of your condition, now comes forth without limit and adorns your reality. And the miracle is the realization and activity of the perfect *Divine Idea* for that condition ~ manifest in perfection.

Miracles are so wonderful, as we all know; and we have all experienced many of them. They are wonderful and sublime, because they speak to us of the boundlessness of *Infinite Life*, the unstoppableness of *Infinite Life* and the glory of *Divine Manifestation*, that is always available to us the Highest level of functioning. Miracles are free flowing manifestations of boundless *Divine Power and Grace* and the absolute fulfillment of Divine potential in all.

*“In other words, when you have a miracle, don't you feel that the whole thing has been released for you ~ that the whole good has been released in some kind of mysterious way into your hands?”*

And you have again a sense that life flows. Life happens, and in the moment of a miracle, time stands still; and the *Ultimate Source* of Infinite potential and measure has found its way through you to the glory of demonstration.

We are very regenerated by miracles. Such blissful events have profound renewing power, as once again the individual Soul is blessed with sublime experience and soars in an Infinite sense of perfect unity. Our Cosmic sense is restored deep within ourselves ~ of the *Great Oneness*, that is. As a living knowledge of the way things really are and the bliss of *Ultimate Realms* of existence, now, course through our being, we are energized at the summit level ~ flourishing in the heightened awareness of the limitless possibilities, that now lay before us.

Miracles emanate from the unconditioned plane of existence, and are very often unprecedented. In other words, there doesn't need to have been any previous experience, whatsoever in this area, to have a miracle; and if you have had a buildup of previous experience, then you wouldn't be calling it a miracle. You would be calling it:

*“Average, normal, everyday or something that I am accustomed to.”*

Miracles are, also spontaneous in the fact that the Universe works in a very spontaneous way. We in our way may be doing what we can to assist the whatever, that we desire to happen, but in actual fact when manifestations happen, they are spontaneous. We may be working in some area, putting our attention and our energy

there ~ doing the best we can to help a thing evolve, and then suddenly it is going to manifest from somewhere over there. So we always have to keep in mind that the Universe is a spontaneous instrument, and it always seeks to satisfy us by finding the open door. The open door ~ that means, where the energy can make contact, and flow through harmoniously and without resistance to become the *Answered Prayer* and the *Light of Fulfillment*.

*Be still, all the Earth, and see the Face of the Lord.”*

Another exciting factor is that there is always a breathtaking breakthrough, present in miracles ~ a de-crystallization of some shell of limitation that you have been encumbered in...and through the miracle you get the greater realization of the *Divine Truth* of your freedom. Often, the glorious happening may seem to appear instantaneously; but the truth is that there has been some kind of buildup on the unconscious levels of acceptance; and your receiving point has been so attuned and harmonized, that it has reached the level where it can flip over into manifestation.

In Truth, you have primed the stage in some way consciously or unconsciously to be able to receive of the greater. And then the thing happens, and seems to happen coincidentally, and you say:

*“I just had a miracle!”*

But make no mistake about it ~ you are responsible for your own miracle. Your consciousness is the one that paves the way for the miracle; and throughout our discourse, we are going to be talking about the many ways of how we can set the stage of consciousness, so to speak, and pave the way for miracles to appear.

Recently, I was talking to a woman on the phone. . She possesses a very bright and spontaneous demeanor, and exudes a very electric type personality. And as we were talking about this exalted subject, she enthusiastically commented:

*“Oh, you mean like when I went to Australia and had no place to stay. I didn't know where I was going to stay; but my faith was on High, and I met a man on the plane, and we were drawn together by affinity, and we started talking; and he told me of a place that was wonderful!”*

And I replied:

“Absolutely! That is just what I am talking about.”

“That perfect connection was God in action on your behalf ~ the manifestation of your boundless faith revealed. The

bountiful incident demonstrated one hundred percent linkage to the Infinite flow and ever-present activity of your Source.”

And then, she became even more inspired, and began to recall other Divine incidents of transcendent manifestation:

*“Oh, you mean ~ when I was thinking of someone, and then I got on the subway, and there they were, and I hadn’t seen that person for five years.”*

And, now she began to really understand the power of her connectedness:

“That is right! That is what I mean! In that moment, you entered the timeless and spaceless dimension of *God’s Reality*, where all is now.”

Miracles are always the outward symbol of the great flowingness that is ~ representing your limitless connectedness to the *Supreme Source* of all good, which knows no bounds, and is always responding to you.

There is one more story I would like to share with you. This really struck me as so powerful, because the essence of this story is right in line with the powerful levels of the *Limitless*

*Divine Self* ~ we are expanding consciousness in order to understand.

There was a woman who was seriously overweight. In other words, her beautiful self, her *God-Self*, was all encumbered by this weight. Her story was being documented on national television; and as I was looking at the pictures of this woman's remarkable and ultimate transformation, I thought to myself:

“This is really wonderful! This is so wonderful because the story of her emancipation so strongly reflects the invincible Truth of all of being and the great potential that lies within all.”

This woman's father ran beauty pageants, and as a little girl she had felt unworthy. Her father was insensitive and kind of severe, and he had the habit of dragging her around to all the pageants; and commenting on all the beautiful women. As time went on, this woman began to develop a deep feeling of unworthiness and inadequacy.

In ever increasing despair, she thought:

*“How could that possibly be me?” “I can never live up to this.”*

There just seemed to be no way out.

In her grief she had encumbered herself with a lot of weight, and her own natural beauty, was finally nowhere to be found. The *Divine Idea* of her was not radiating. Through the process of her experiences, and resulting downward trend of her life ~ she had gotten into drugs and into the stories that each and every one of us has gotten into or experienced in some way or another.

Eventually she came to the final point, where she was just so far down there, that *that* was the turning point. That was the crisis. She had gone as far out as she could in her resistance of the truth about herself, and her anger towards her father; along with the devastating habit of constantly comparing herself with others, which ultimately was her downfall ~ heaping on more and more levels of fear and shame.

At this moment, with nowhere else to turn, she approached her mother, and pleaded:

*“I need your help!”*

And her mother replied:

*“Okay, I'm going to help you, if you will follow everything that I say and do ~ everything that I recommend. And providing you will get rid of all your negative friends, who are into drug*

*abuse and destructive attitudes and behaviors; and you will follow the pattern that I'm going to give you, I will help you."*

Now, this same woman just last week won the beauty pageant for *Mother of the Year*; and she is truly a living example of the Divine transforming power. And she is extraordinarily beautiful. Looking at the change ~ it was like looking at another person; and the work that she does now is helping others to emancipate from the same difficulties. Seeing her in her transformed state, one could not even recognize her from before. Yet, this power of complete transcendence had always been within her.

Usually, when people change so dramatically, we can see a glimmer of something of the old identity in the new form. But there wasn't a glimmer, and she was more stunningly beautiful than ever; and had indeed, become the embodiment of Divine natural beauty and physical beauty of form, complete with a natural radiation of light, which was the radiation of her raised consciousness. In awe, all the newscasters were commenting:

*"This is a miracle. What a miracle!"*

And I thought to myself:

*"No! No! What do you mean?"*

This was the natural demonstration of this woman's commitment and the power of her decision to change. She just decided to bring out the *Divine Idea* about herself, which was always there ~ to throw over the lesser for the greater. And it took a crisis to do it ~ to drive her so far in her own unworthiness, let's say, ~ to come to the point of change.

Sometimes a miracle follows a crisis.

“*Why is this?*”

Because the miracle is the seed of perfection in the *God Atom* of your innermost being. The *God Atom* of perfection ~ within, is where your miracle is; and crisis has the power to release the greater reservoir of limitless capacity into action.

When we are in our humanness or separateness, we are willing, and we are forcing and we are trying to figure things out. Everyone knows what this feels like ~ trying to control that manifestation, where the *God Energy* ~ the free-flowing energy, which is the embodiment of the answer, cannot flow. We can see how it is encumbered and restricted, and we are all bound up.

So when you meet up with a crisis ~ realize, if you have ever drawn this means to get to your miracle ~ realize, at the

moment of the crisis, that this is your blessing and your turning point. It is at this very moment, when you are up against it ~ that you are on your way to a miracle. Learn to consciously embrace your crisis, and determine that you are only utilizing this crisis, as a catalyst to get out of your fixed condition, and to connect to the greater *Divine Idea*.

When things are falling apart, they are really coming together at a greater level. When we get to the point, where we say:

*“There is nothing I can do. I have had it. I have done everything that I can do.”*

Realize that...it is at this very sublime moment of complete release, you are making the *God-Space* for the *God Atom* ~ the Reality of your being to come forth, and allowing your Divinity to serve.

So never think that during a crisis, and I know many of you know what I am talking about, that it has come to devastate you. It has only come to strip away the barriers, to lift you to a higher dimension of knowing, where you have no other recourse left, but to say:

*“God, help me!”*

And very often it is at that supreme moment in that pure essence of freedom and openness, when all that energy of holding on is released ~ that the miracle appears.

Miracles or instant manifestations, which we also classify as miracles, are living evidence of the *Presence of God* ~ that *Invisible Essence* which is always producing and providing everything for us. They are stunning evidences of the *Living Immortal and Imperishable Presence* ~ within us; and we cannot find them in our rational minds. We cannot find such blockbuster manifestations in our restrictive behavior or in our limitations. We can only find them, only when we are receptive and cosmically attuned and completely unconditioned in our thought. However, we get there ~ through enforced crisis prodding us to finally to let go, through a need so strong in importance to you that it causes you to exceed all former reservations and/or barriers, or through steady and conscious attunement; it is nevertheless, always ~ God, in us ~ making the way.

So in this evidence of the complete *Power and Presence* of God, which is a miracle manifestation, there is also resident the tremendous force and power of unification, where our beingness is unified with the *Divine Presence*, the *Great I am*, within us; and the *Oneness*.

We have a sense of connectedness to all ~ and to each and every one ~ and to everything that we experience.

*“Don't we feel that when we have had a miracle we are one with all that is?”*

*“I am one with all that is!”*

There is a sense of beauty and boundlessness with that ~ that comes along in that supreme moment of joy and bliss.

So try to get that limitless sense. Cultivate that consciousness of *Sublime Unity and Oneness* in advance; and be the mystic in all your ways, and you won't need the crisis to arrive there at the great Truth of your being.

Miracles also often involve synchrony and serendipity ~ *Synchrony* meaning simultaneous occurrence.

*“Gee, I was just thinking of that person, and there they are.”*

*Serendipity* is when you are looking for one good, and another shows up. There you are, out on your adventure looking for your gold mine of good in one area with an open heart of joy, and then suddenly something else that you have desired shows up in your path. That is that spontaneous element, and that is called

*serendipity*. And these marvelously exalting incidents adorn our visible realm of experience with definite evidence of the *Presence*, and *Invisible Power* and *Invincible Force of God* ~ as your true manifesting and providing power.

Imagine ~ if we are very worried, and if we are very encumbered, we are blocked from experiencing the free-flowing force of miracle manifestations. We must have a sense of a Sublime, however we get there, of the mystery and the wonder ~ the *Supreme Wonder* beyond knowing of all creation ~ creation of what we are, where we are...and that *Creative Power* that can manifest worlds.

Realize ~ that living at the level of miracles is the natural way our lives are meant to be. Understand that ~ *that* which we call *miracles*, are simply the *Law of Creation* working without any obstruction from our side.

You can rejoice in the knowing... that limitlessness is your natural God given state and the way ~ that it is meant to be.

Knowing this, regardless of where you are, you can set your sights to know that regardless of any past experience, that you are going to come to realize that this is the way it is meant to be and not a sometimes thing. Anything less is subnormal to a *Divine Being*. It is subnormal. There is no supernormal ~ no supernatural

in God. Anything less is actually subnormal, according to the Divine standard.

*“The kingdom is mine. All that the Father hath is mine.”*

*ENTERING THE KINGDOM OF DIVINE  
MANIFESTATION*

Now, let us center ourselves in meditation ~ to attune our minds, and get ready for the work we are going to do.

*So let each draw a deep, renewing breath...rising to the summit of Divine Awareness; now going within to the Sacred place of the Most High and the True ~ the Everness and the Allness ~ That which is. And let us now become sublimely still and aware in our perfect God-Center ~ knowing that we have left all worries, all cares, all burdens, and all thought taking right outside the door of conscious awareness.*

*Each one of us now, if we have forgotten to leave something outside, we go in Spirit, and release it, breathe and let it fall; and then come back to the hallowed center of the Temple, within ~ where we are ready to receive of greater ideas than ever before.*

*Now, remember ~ as Jesus said:*

*"My yoke is easy, and my burden is light."*

*Having released all our cares, let us enter the Divine Realm, anew ~ fresh, clear and ready. In the center of existence there is an imaginary golden elevator of Spirit, and we are gathered around it. Now, we quietly step together onto the beautiful golden elevator of Truth.*

*And we are going now to the uppermost floor of understanding to realize and view the full potential of our being in the Highest place. We have arrived in an instant. And now we open the door, and there before us is a magnificent new City of Miracles.*

*We enter the hushed gates and look around ~ and as we look around we see the great atmosphere and teeming consciousness of peace, joy, love and faith that abounds now in balance.*

*Here is the place where miracles are the norm, and the greatness of creation flows free, and through ourselves ~ and all beings, magnificently.*

*People in this dimension are wise and evolved. Here, in this dimension we notice there is no laboring. There is only thought flowing successfully; and the entire collective consciousness is unified in harmony and truth.*

*All manifestation we notice is instant and carefree; and God is recognized by each and all, and heralded as the One and Only Source...and all that is ever necessary for the accomplishment of any great thing ~ for perfect demonstration.*

*Here in this Hallowed High Place, creative processes are revered, and are deeply understood, and honored; and intense creative thoughts are used only for the Highest and noblest visions and intentions of good.*

*As we watch the flow around us in this City of God's Life, no one seems to be concerned or competitive or controlling another. All have their minds serene in the worship of Everlasting Truth. And the great Diamond Walls of this City keep out and repel the profane, the unbelieving, the unknowing; and only those of faith and love of the Divine Spirit, may enter. Here we notice as we look out over the sea of persons there is no status, no achievement, no history, whatsoever that counts with any being, or that makes any one being more than another. Only faith and profound knowing and reverence count for the manifestation.*

*And everything moves at gliding accelerated pace, like great streams of life flowing out. And there is no such a thing*

*known as delay or obstruction. Only my God now ~ my good now, is known by each and all. And there is never a negative word spoken or entertained. It is not even known what negative words are. Here, in this territory, indeed ~ thoughts are things.*

*Thus, thoughts are carefully chosen with wisdom and joy. Each one has their full at every moment, all the time. And each one is sublimely fulfilled and satisfied. Everyone seems to be involved in the art of embodying within, knowing how to embrace an idea. And each one knows how to expertly clothe their ideas with brilliance, beauty, imagination, creativity, abundance, eloquence, loftiest ideals, freedom and joy.*

*No one knows:*

*"I can't."*

*Frustration is unheard of ~ nonexistent. Ideas of "no" and "impossible" have totally dissolved from consciousness and from the universal vocabulary.*

*Each one seems to be able to create at will the most magnificent creations entirely.*

*Yet, at the same time no one seems attached or clinging to any single creation, just simply rejoicing in the full realization and*

*utilization of the creative power and the expanse of the imagination.*

*Creation is not an effort; it is simply an act of joy.*

*Here is the Divine Dimension where people manifest at will and with ease. And each thought is filled with love. Each knows their own power and freedom, and manifests what they require as they go along, in the moment they require it. There are no limitations. If you want to communicate with someone here, it is easily done with a pure thought. If you want to manifest, there is no resistance, and you do it, and it takes place. There is no memory whatsoever of hardships or other worlds, only the pure joy of creation.*

*As we draw a deep breath and drink in of this Infinite scene, which we know is our promise, we realize ~ to have permanent residence at this level, we must have cleansed ourselves of all restrictive ideas of our ancestors, of history and collective memories. For indeed, they have no place or power here. We must have only our good idea before us.*

*And we must have faith in ourselves and the Invisible with which we work, and with which we are one.*

*The constant mantra for all individuals here is:*

*“I and the Father are One.”*

*And we must know God is the Thought Substance, and becomes the Form of all things. God always manifests as the good I have named. And God alone is the only “Perfect” Doer.*

*We must know that our good always manifests independently and of itself, by pure thought alone...and by the Divine Law that thought becomes thing. The sublime good, we have in mind exists independently of all things, and is dependent upon our conception of good alone... and our invincible faith and trust; and there is never a problem with the availability of good in the Kingdom. There is no shortage, no lack, nor any good reason to delay or go without any more.*

*And we notice that God ~ the Force Itself, is the only Spontaneous Doer in charge of matching our conceptions with the most perfect manifestations; and we are told and reminded that we must know our authority here, and not doubt the authority of our choice and our rights.*

*And we must be empty. Our minds must be emptied of all thoughts of:*

*“I shouldn't, and it is too good to be true, or that is not possible.”*

*For negative beliefs do not operate here, and are completely unknown and completely irrelevant ~ in the world of instant manifestations.*

*As we look around, we see that no one seems to be depending upon anything or anyone. No one has any guilt, shame, blame or remorse. No one even seems to have resources in their very hands when they manifest. Yet, through the power of their ideas they can manifest all. How mysterious and wonderful it is!*

*Here in this place ~ we pause to remember:*

*“Manifestation is dependent on consciousness alone and the idea, itself.”*

*And this is the key and the password:*

*“I have a great idea whose time has come. And I am one with the Great All in the All.”*

*As we silently withdraw, now ~ slowly moving back to the elevator, it also seems we notice that periodically people stop, in briefest and most perfect contemplation of their idea, to remind themselves of the good things that they are manifesting.*

*And look how they love their ideas intensely, and clothe their ideas with such bountiful Love.*

*This very action instantly serves simply to atomize the idea and lower it into form. In an unbroken stream of connection they swirl that love around their idea and the idea gets brighter and brighter and more luminous, more and more vivid, and then moves over into the manifest plane.*

*This Love is always the Supreme Power that the lustrous Masters throughout the Ages always use ~ we notice. This is the power, we shall also use; and we promise ourselves, now, to eternally remember the indomitable greatness of this ultra Power of Divine Love, flowing so mightily through us now. It is all we ever need. Yes, our loving an idea, and radical reliance on the power of God... brings it through. We have the tools, for we know now; it is our staying with an idea, and sweeping our Light around it, which brings it through.*

*Now, having observed in great appreciation this beautiful dimension of miracles and wondrous life, let us now withdraw quietly back into the elevator ~ each one remembering what we have gained. And now let us breathe, and shoot down the elevator, through the center of the Universe ~ returning to present awareness; and stepping out, let us speak of what we have seen.*
